

RAJEEV KUMAR OJHA

Senior Techno-Functional Business Analyst & Integration Lead

📍 Delhi NCR, India 📞 +91 8864012753 ✉️ rajeevjee.ojha1@gmail.com 🔗 [linkedin.com/in/rajeev-kumar-ojha](https://www.linkedin.com/in/rajeev-kumar-ojha) 📄 github.com/R-Ojha

PROFESSIONAL SUMMARY

Results-driven **Techno-Functional Business Analyst & Integration Lead** with **4.5+ years** in IT enterprise software delivery (QA/BA) and **3 years CA Articleship**. Proven track record managing mission-critical POS, EDI, and inventory data pipelines across **10,000+ active stores** for Tier-1 brands (**Jack in the Box, Inspire Brands, Denny's, Bojangles, Steak 'n Shake**). Led microservices consolidation of **2,500+ stores**, delivered a **50% SQL DB load reduction via MinIO**, and architected automated n8n off-peak pipelines. Built custom internal team GPTs and AI workflows backed by formal credentials from **IBM SkillsBuild** and **LinkedIn Learning**. Dual-threat leader combining deep financial reconciliation rigor (**CA Intermediate**) with hands-on systems architecture.

TECHNICAL & PROFESSIONAL COMPETENCIES

BA & Product Governance:	Requirement Elicitation, BRD/FRD/SRS Authoring, User Stories & Acceptance Criteria (Gherkin/INVEST), Schema Split Design, JAD Workshops, UAT Sign-off, Backlog Grooming, Application Migration Strategy.
POS & Integration Protocols:	QUPOS (Pull/Cron), PAR BRINK (SOAP/XML), NCR SILVER (REST/Swagger), Aloha POS (On-Premise EXE / .DBF Reader), XENIAL, LUCAS, Webhook Streaming, EDI (850, 810, 832, 997 Return ACK via SFTP).
Data Engineering & DB:	SQL / JPQL Querying, PostgreSQL TOAST/BLOB Decoupling, MinIO S3 Object Storage, Receiver-Connector Normalization, Day-Level Parent Rollups, Tri-Tier Alert Telemetry (Fetch/Process/Transport).
DevOps, AI & Automation:	Custom GPT & AI Agent Engineering, GitLab CI/CD Pipelines, n8n Workflow Automation, Postman (Assertion Suites), Jira, Confluence, Grafana, AWS (EC2/S3), Swagger, Git/GitHub, Salesforce Essentials.

PROFESSIONAL EXPERIENCE

Techno-Functional Business Analyst & Integration Lead | ANR Software Pvt. Ltd. Apr 2022 – Present | Delhi NCR, India

- Enterprise Scale & Operations:** Orchestrate POS, EDI, and inventory data pipelines across **10,000+ active store locations**, maintaining 99.99% data availability and zero-loss financial integrity.
- Unified Pull Engine & Consolidation (2,500+ Stores):** Spearheaded pull-based 2-consumer microservices integration for **QUPOS (Jack in the Box - 2,000+ stores)**, and executed zero-downtime cutover consolidating **XENIAL (Denny's - 300 stores)** and **LUCAS (Bojangles - 200 stores)** with tri-tier alerting (Fetch/Process/Transport).
- Multi-Protocol POS & SME Webhooks:** Team SME for **PAR BRINK SOAP/XML (Inspire Brands 1.2k, Mooyah 300)**, **NCR SILVER REST (Steak 'n Shake 300)**, and **Aloha Desktop EXE/.DBF readers (Mellow Mushroom 100)**. Architected outbound JSON Webhooks and real-time BI feeds for multiple SME clients.
- MinIO Storage Offloading (15+ Apps):** Led offloading of heavy BLOB/TOAST tables to MinIO S3 storage across **15+ core applications** with a 3-layer fallback architecture, achieving a **50% SQL disk reduction** and cutting backup windows from 4h to 20m (Awarded **Employee of the Month**).
- Supply Chain EDI Engine:** Architected automated SFTP ingestion for **GFS, PFS, and GFS US**, parsing EDI 850/810/832 files into internal schemas and generating bidirectional **EDI 997 Functional Acknowledgments**.
- n8n Throttled Backfill & AI Acceleration:** Built an automated off-peak pipeline in n8n (6 stores / 10 min & 60s cooldown), syncing **13 months of historical data for LUCAS** with zero 429 errors. Developed custom internal team GPTs to automate mapping analysis and query generation.
- Platform Upgrades & Migrations:** Led an end-to-end **Hibernate migration across 15 applications** with zero post-release bugs and managed AWS server transitions (Awarded **2x Employee of the Month** and **2x Corporate Recognitions**).

Articled Assistant (Financial Audit & Systems) | Chartered Accountancy Firm 3 Years Full-Time | Patna, India

- Conducted statutory, internal, and tax audits for corporate clients including **Punjab National Bank**, executing ledger analysis, internal controls assessment, and financial compliance verification.
- Established financial reconciliation models forming the foundation for 3-way ERP data matching and ledger balance verification.

EDUCATION, CERTIFICATIONS & CORPORATE HONORS

CA Intermediate (Qualified) Institute of Chartered Accountants of India (ICAI)	AI & Cloud (IBM SkillsBuild) AI Fundamentals, Cloud & Project Mgmt	2x Employee of the Month AWS Migration (July 2025) & MinIO (April 2026)
Bachelor of Commerce (B.Com) Accounting & Business Economics	GenAI & CI/CD (LinkedIn Learning) Custom GPTs & Agents, GitLab CI/CD, Cloud Migrations	2x Newsletter Appreciation Hibernate (Aug 2024) & Partner Ingestion (May 2025)
